

Increase your child's awareness of using lines for Handwriting

- ✓ Draw a chalk line on the side walk or stick colored tape on the kitchen floor to make a writing line. Use cut out letters / flashcards / scrabble tiles and ask the child to spell his/her name, placing letters on the line
- ✓ Encourage your child to stick little stickers along a line or around the boundary of a drawing e.g. butterfly
- ✓ Use metallic tape and stick on cookie sheets to make lines and use magnetic letters to place on the line.
- ✓ Draw a line in the sand (playground/beach) with a stick and ask your child to write letters on the line using the stick / his finger e.g. spell your name / print the letter 'A'
